Dear Karen Mundry and Hans Mundry,

Having found out about the local ramifications re: the proposed main road/New City development plan for Westy/Latchford from a privately produced leaflet and a display in Barnardo's, I am writing to express my concern as this is a horrific idea and one I dearly hope you will oppose.

Why is there no information roadshow or proper publicity in general for this ghastly proposal in the Westy/Latchford/Grappenhall area?

Why is this being rushed through - who will benefit, because it certainly isn't the people living in this area!?

What do we locals need to do to demonstrate this is unacceptable and encourage the council and whoever else is in charge of this decision to make a different (hopefully better) decision? This is a genuine question.

Yours sincerely,

[REDACTED]
