Subject: Burtonwood development proposal
Date: 08 June 2019 15:28:35

Dear Sir, I wish to register my objections to the housing development in Burtonwood, as proposed by Northern Trust. This development will have serious detrimental effects for the residents of Burtonwood. These will include, THE LOSS OF GREEN BELT AND ITS WILDLIFE, INCREASED TRAFFIC ON ALREADY BUSY ROADS, LOSS OF AMENITY, AND LONGER WAITS FOR MEDICAL APPOINTMENTS etc.

The infrastructure surrounding Burtonwood doesn't lend itself to expansion on such a grand scale. The access roads are mainly country roads with no footpaths or cycle lanes, and are already dealing with the extra traffic from the Omega development. The bus service is poor to say the least. There are few amenities for youngsters in the area. A large increase in population will only exacerbate these problems.

The residents of Burtonwood have had to endure many years of disruption, with the building work on the Gemini site, the ongoing Omega development, and the Junction 8 roadworks.

The area has reached saturation point, with both traffic and population. There are hundreds of houses already being built in the local area, on the Omega site, and around Earlestown. Burtonwood is being enveloped from all sides, and it's time to say enough is enough!

Yours Sincerely
G. Donaldson
