We can't cope on the roads now, never mind god knows how many more vehicles if this ridiculous plan goes through.

All this extra pollution is going to be extremely bad for health in young and old.

People bought in soul that Warrington for the green spaces and have aspired to get here, not a god given right to live where you like but to work hard and live in area of outstanding beauty, we need to keep as much greenbelt as possible and stop the building.
