I would like to object strongly to the local plan.

This plan is not a sound plan! it will be taking over land that is greenbelt and there are no special circumstances for this to be done.

The council says it would like a vibrant town centre surrounded by attractive countryside but this would wreck Appleton Walton Stretton Grappenhall.

The transport and infrastructure in Warrington is already at breaking point.

Congestion is a major problem on roads in the south of the town and especially around the M6 at Junction 20.

It is imperative that the infrastructure should be built before these houses not later. We in the South already suffer vastly from the swing bridge closing and causing great hardship to travel.

I feel that the cost to for building these extra roads will be astronomical.

The environment will be destroyed and it will be lost for ever therefore I think that this plan is not Deliverable and is therefore unsound
