Dear WBC,

I wish to object to your local plan for the following reasons

- It will do real damage if not decimate the Green Belt in South Warrington
- It will significantly increase the traffic around Jct 20 where there are already queues at peak times and will simply create long delays for access to the Motorway for commuters.
- There is no need to build so many houses 18,000 + and not least the 7000+ designated for Green Belt without any proper justification for them being built - they should be built on Brown Belt or along the Ship Canal if really needed.
- There are other areas with better infrastructure and access to the surrounding Motorways - most notably Birchwood where there is already a train station - why not build there ?
- Warrington already has a poor record on air pollution - being one of the worst areas in the country for PM 2.5 - adding more traffic - including 2000 lorries per day from 656 will not make this better - so you are making a conscious decision to make it worse - that is renegeing on your responsibility for the health of your citizens.
- I do not think your plans are properly thought through , there is no real investment in infrastructure to support them as such they should not pass.

Kind regards,
Nicola Pike
