Dear sir/madam,

I am getting in touch to put on the record our objections to the revised Local Plan. As far as I can see not much has changed from the first draft despite all the objections and the plan still seems to mostly revolve around destroying the majority of green belt in South Warrington.

I don't believe this plan is sound for the following reasons:

- The planned development will bring extra congestion and pollution when roads are already busy, plans to mitigate this seem vague at best
- Same applies to pressure on public services, ie schools, doctors etc
- The number of houses required seems far too high based on official population increase predictions
- There is no justification for releasing green belt until all brown site possibilities have been used. It might make sense to actually build houses on the swathes of land in WA4 that have had planning permission for decades before coming up with a plan to build thousands more!

Yours sincerely,

Paul & Joanne Allshire, [REDACTED]
