

7th June 2019

Dear Sir

We write to object to the Councils plans to build 5,000 homes, plus acres of new warehousing.

Your plan is not sound. The plan only needs to be for 15 yrs not 20. This will reduce the need for Green belt land. Lower housing numbers are needed in line with the latest population figures and building rates.

Surely if new builds are needed, then brown field sites are the better bet.

Manchester has rejuvenated its centre by building homes on brown fields and if Warrington was to use its towns brown fields, it would severely bring life into a dying town centre.

Our road system is ancient and would be unable to cope with more people travelling from South Warrington to the north of the town.

Our villages will lose their identity and the loss of green space will destroy their character.

In reality the plan is not deliverable.

Yours faithfully
Jennifer Daly
Bill Hamilton.
