

Dear Sir,

13-6-2019

I wish to register my objection to the Draft Local Plan for South Warrington to build large numbers of houses on green belt land.

The infrastructure is not in place for such a large development. Stockton Heath through traffic is at a stand still most times of the day. During school term times Dringloway, Bridge Lane and Wombles Brook are grid locked two or three times a day. London Road down through Stockton Heath is blocked until 9:30am in the morning. Doctors surgeries have difficulty dealing with the number of patients already registered. Parking places are inadequate for the number of people wanting them in Stockton Heath. Each of the proposed new houses will have at least two cars. ~~Kind~~ I say more sincerely
Joan Dean
