## Ref Local Plan

Dear Sirs

I write to you regarding the proposals of development of areas in south Warrington. I vehemently object to this land grab! I note that there is no infrastructure for improving roads. I wonder how many members of the Council try to access the M56 at Stretton or the Appleton/Lynn junction in rush hours! Not many I think because delays are horrendous! The whole plan has not been thought through, and is totally unsound. Brown field sites to the north of Warrington should be looked at, not the beautiful greenfield areas in Appleton and Groppeahall.

This "bonkers" idea reminds me of the sign at the bottom of Bridge St some years ago welcoming people to the "City of Warrington". In your dreams!

Yours with objection

John Miller
