

Decision

### LOCAL PLAN

I do not think the proposed local plan is sound, for the following reasons :-

- ① It takes Green Belt land away from Agriculture and Food Production. The expected increase in population and our food security requires our Green Belt land to be saved for agricultural use.
- ② Our present infrastructure, especially roads, cannot cope with current volume of traffic and this situation will only worsen as already approved housebuilding programmes are complete.
- ③ Future housing development should only be considered on Brownfield sites and only approved alongside infrastructure.

(2)

improvements.
