Subject: Response to latest version of local plan for warrington
Date: 16 June 2019 23:29:01

Dear sirs,

I would like to reiterate my concerns for the local plan as follows:

There is still a loss of huge areas of green belt.

There is an inadequate infrastructure to cope with the changes.

Loss of recreational space on the transpennine trail .This will have a significant impact on the health of the local population. Family Exercise is a way of trying to address the obesity crisis. It is also of paramount importance to the mental health of children and families.

The plans will have a detrimental effect on the character and distinctiveness of villages like Grappenhall.

Plan period is too long at 20 years. There is a lot of uncertainty around jobs and brexit at this present time.

I hope that the local council will take on board the concerns of residents living in the villages most affected by these plans.

Yours Sincerely

Carole Rowbottom
