I am writing to express my great concern regarding the local development plans and would ask that you change these from immediate effect. They will have a catastrophic impact on the countryside and increase pollution to dangerous levels. They will also have a negative impact on house prices.

Kind regards

Dr Chiara Mosley

Dear Sirs,

I have recently been made aware of the proposed plans in the local area. Whilst I would support the need to extend the housing within the local community, the proposed plans for the large dual carriageway is of great concern.

Not only for the disruption to the local community, but the pollution and noise is already severe from the motorway and this will take this to an unbearable level.

It is clear that with this proposed road the value of our properties will also be affected.

I trust that there will be a review of the public comments and hope that, like previous consultations that the results will not be financially driven.

The building work in Appleton has caused massive disruption and upset and damage to vehicles. I hope that you understand, not only my concern, but the concern of the community you review the building of the large dual carriageway.

Kind regards

Dr Chiara Mosley
