Subject: Draft local plan objection
Date: 13 June 2019 10:33:26

We wish to register our strong objections to the Warrington borough councils local draft plan.

We are unhappy due to

1 Traffic and road issues. Local roads are already very heavily congested

Further traffic would exacerbate this and add to environmental concerns

2 Local health services and schools are already overstretched Increasing this provision should take priority over additional development which would add to the problems

3 Loss of valuable green belt land which cannot be replaced and will have an adverse affect on health and quality of life of local residents .
