---

I object to the local plan as a child I will be growing up in warrington, I don't want to grow up around warehouses and thousands and thousands of houses, I love going for a drive around and looking at all the fields, Please don't take this all away from me and my family and friends , we ned the trees, its bad enough we use trees for paper, but you are now going to chop them all down and all our fields will be gone.
