---

I have read much to do with the local Deveipement Plans and find little that i can applaud. The Planners seem to be obsessed with making Warrington BIGGER not a better place to live and work in.The proposed plans to deal with the inevitable even worse traffic congestion are merely playing with both the current and future problems.In the meantime some effort should be spent on redesigning the croosroads at St.Heath and the Cat and Lion to facilitate a better through flow of traffic.

Yours J.G Carey
