Subject: Local plan

My objections to the local plan are as follows:

Transport/infrastructure - inadequate facilities at the moment and transport plan lacks detail on how/who will fund the changes needed.

Health provision

No real info on how this will be addressed. Facilities for health care across the board - Hospital, GP, Dental etc struggles to cope with current demand.

Schools

Argument as above

Housing proposals

Far in excess of needs. Affordable housing issues, loss of free space

Proposed plan seems to be about city status and generating income.

Jaqui gandy
