Dear Sir/ Madam,

I would like to share my specific objections to the local plan as it currently stands.

I think that there is categorically no need to build a super warehouse on green belted land to satisfy the hungry needs of a large transport company. It is far more academic to use brown belt land in the north of the town (such as the land on Fiddlers Ferry). I can't see how this would attract the ridiculous assumption that houses will be bought at a premium in this area (8000 plus new homes).

We live in a beautiful town which unfortunately has high rates of poor air quality which leads to all manner of respiratory and heart conditions. Adding extra HGV's will ultimately bring Warrington to its knees (traffic wise) and put an unacceptable pressure on doctors surgeries (rapidly declining) and patients health. We recently moved from Gatewarth industrial estate to escape this same nonsense! Warrington has major traffic flaws as it stands and this will only be exasperated by this and will drive people away. I find it very hard to understand where the much needed funding for roads (on going repairs) and new infrastructure will come from.

I am totally against the destruction of green belted land, the significant rise in air pollution and the saturated road traffic problems that will be a consequence of this plan. I think academically there needs to be greater overall wisdom and joined up thinking with the rationale behind this absurd project. People = positive change, money before sense = a disaster waiting to happen. Wake up WARRINGTON council before we lose our faith in you.

In my concluding opinion I believe that the LP-PSV and LTP4 are unsound and undeliverable.

My name is: Liza Buckley, [REDACTED] Warrington [REDACTED]

Regards

Liza Buckley

I object t
