Comments: Objection to planning south Warrington urban extension.

I don't have attachments to upload. I don't have legal guidance on how to best object.

I am 1 mother of 3 children.

Warringtons air pollution levels are already amongst the worst in the country.

Infrastructure is already at breaking point for the existing community.

My children are already growing up in a world which is at its limits. So very nearly destroyed by constant development. In the pursuit of profit.

I don't want this for them. Or, truth be told for me.

Why do these people want to develop these areas? From the goodness of their hearts? No just pure profit and this sits at odds with the fact we will also lose so very much.
