The residents [REDACTED] wish to object to the local plans for many reasons: (a) the traffic every late afternoon until early evening is stationary with engines running the whole length of Knutsford rd from the motorway to latchford causing a great deal of pollution (b) an incident on the motorways brings traffic to a standstill for many hours and the residents along this stretch of road find it difficult to access and leave their properties (c) the houses you are proposing on green belt land will benefit the people of Warrington who are on the waiting list for social housing (d) you do not listen to the people who live in these areas as you will know that our lives are already blighted by traffic and pollution and by bring hundreds more cars and lorries on to these heavily congested roads our daily lives will become intolerable !
