Mrs Victoria Bailey

13th June 2019

Reference – Local Plan Objections

Dear Sirs,

I strongly disagree with the proposed local plans and would like to submit my objections.

This seems to be a developer-led scheme which appears to decimate the green spaces of our town and deliver more traffic to an already congested area and cause even more air and noise pollution.

The economic growth targets seem to be well over stated by the parties who have a vested interest in the plan, without any back up documentation to support the growth figures? All the official growth figures ALL predict a much slower growth, so there is no justification for these forecasts for the town's housing needs – it's well over the government housing targets!

There is absolutely no case to support the use of Greenbelt land, and especially as there are brown field alternatives available – the plan does not meet the criteria to release from Greenbelt.

The brief few points I have listed above demonstrate how this plan is NOT deliverable and this huge development will destroy our villages.

I trust you will submit my objections.

Yours faithfully

V Bailey
