I OBJECT to the warrington local plan,

I believe it to be Unsound and unjustified,

You are planning on taking lots of beautiful greenbelt fields, I don't believe there are reasons to do this, There are no special circumstances, There is brownfield sites especially fiddlers ferry which will be decommissioned and could be used for either houses or the vast commercial developments.

I don't think there is going to be a demand for the amount of houses you are building as There are houses now which lie empty we are going to be left with thousands of empty expensive houses.

The Pollution levels are so high in warrington, we need the fields to take the pollution lower, but you will have the pollution so much higher especially with the new commercial developments applied for, People who worked there, are going to be travelling into work ad the traffic is already very very bad in warrington.

Please take my objection into consideration.

Yours sincerely

Mr Oliver Kinder
