**Date:** 17 June 2019 15:50:02

---

I object to the Warrington Local Plan as I believe it is NOT SOUND  
There is No need for the volume of housing on the scale proposed -  
Because there is No justification for the "predicted" growth.  
No justification for the release of Green Belt land on this scale with  
No consideration of the use of Brown field sites- of which there is many. The Fiddlers  
Ferry site has announced imminent closure. These sorts of sites should be utilised long  
before Green Belt land is taken from all of us with no way of reversing such short sighted  
plans, which will destroy the character and distinctiveness of our villages, as well as the  
wellbeing of the local ecology as well as the wellbeing of your population of  
residents/people for whom council planners are responsible ! The governments new  
climate change targets will not be served by the massive increase in traffic with inadequate  
infrastructure and increase of air pollution here, which is already amongst the worst in the  
country ! Simple logistics and geography already cause access problems for traffic on a  
daily basis attempting to navigate across  
the River Mersey, Manchester Ship Canal, and Bridgewater canal.  
5000 new homes built in the areas proposed will produce even more problems with poor  
access to railways and bus services too. There is not enough detail or adequate plans  
showing infrastructure ( roads bridges, schools, medical centres etc ) to support this local  
plan .This plan is definitely NOT a "sound " plan.

Sincerely  
P. Lucas, Warrington, [REDACTED]
