Subject: Objection to building on green belt land
Date: 16 June 2019 23:23:26

I formally object to the building on green belt land.

The local life will be ruined forever, as the area does not have the infrastructure to support this plan and the increase in pollution will be devastating to our population never mind the increase. There is plenty of other areas which would not cause such a devastation to the local community.

If this is voted on and agreed I don't think the local councillors will have their jobs much longer either as everyone I have spoken to is against this.

Yours disappointed.
