To whom it may concern.,

I have followed the progress of the local plan with interest and wish to express the following concerns

1. Despite many on he rooms the revised plan is very similar. Very, very little has changed.
2. Why use Green belt when Brown belt land is available with less disruption and less economic and environmental impact.
3. The infrastructure is still not clear and surely that must be known as this is needed for the building and development. How many houses, roads and communities will need to be destroyed and homeowners will have their houses compulsorily purchased?
4. Warrington is already gridlocked st key tomes and this is exaggerated to an unacceptable level if there is an incident on the motorways. Surely the A49 needs to be developed?
5. How many jobs are needed to dupport the population increase? Surely it cannot be sustained.
6. Warri from does not need extra housing as there are plenty of housing run down and underdeveloped. The centre could support more housing and that world support the town shopping centres.

This is just a few of the major concerns.

There is no need to build so many. It cuts down employment land, destroys the existing infrastructures and the charater of warrington itself.

Kind Regards

Jenni Wood
