Subject: Proposed South Warrington urban extension.
Date: 16 April 2019 22:18:59

Dear to whom it may concern,

As a resident living with my wife and young family [REDACTED] I would like to voice my concerns regarding the proposed urban extension of South Warrington.

My main concerns: The increase in traffic and consequently air and noise pollution. The lack of infrastructure in place or planned, Including schools, all emergencies services (already struggling) and the loss of green space.

I urge you to consider your agenda and the motives that drive it. I know money is deciding factor in everything nowadays but you also have an obligation to carefully think about the impact on the residents of South Warrington.

Surely it would be better to plan considerately, caringly, thoughtfully, openly and above all honestly.

It would go a long way to help bring people on board and encourage locals to embrace the changes, maybe even look forward to them and not dread them or demonstrate against them.

Yours Faithfully
