4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

unsound

it may be 'legally compliant' e.g. tick box exercise,, worded in such a way it sounds considerate of local needs, responsible etc - doesn't mean i can or local people can trust this.

There are no actual recognition that show the area (services) can manage huge increase to local area - how will roads cope, further and much increased delay at lights (already ridiculous - that adds 10 minutes on to every journey i make) , where are all the kids going to go to school, attend GP surgeries, pollution levels - impact on local wildlife especially.

5. If you answered 'Yes' to any of the options in question 3 then please give details in the box below the reasons why you support the legal compliance or soundness of the Draft Local Plan or its compliance with the duty to co-operate. Please be as precise as possible.

more transparency and honesty about why so much green belt land is being used? What will happen for instance to the next generations accommodation needs - , further use of 'green belt' - there is no credibility to the term 'green belt'

Infrastructure to support how will this be possible - how long will i have to wait now at Cat & Lion lights, how long will it be before there are accidents because of this increasing strain?

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The Council is required to provide a Sustainability Appraisal Report when it publishes a plan. This should identify the process by which the Sustainability Appraisal has been carried out, and the baseline information used to inform the process and the outcomes of that process. Sustainability Appraisal is a tool for appraising policies to ensure they reflect social, environmental, and economic factors.

Clarification - actual statistic, available to see readily (not in another document) of how the local area will cope with this development (previous issues raised - pollution/schools/traffic increase
