Hi, Just thought I would add my voice to the opposition of this plan. Warrington at the moment has no coherent plan to cope with the crossing of the Mersey and the ship canal in a functional manner . And this is without adding enormous extra development into the mix. You seriously need to rethink this . J20 on the M6 is already a lorry park much of the day!!!! Go and take a look.

As you know a lot of the favourable opinion will have been cast by non-residents who have been coerced by those with a direct financial interest Plus ca change
