Draft Local Plan (as a whole)

2. Does your comment relate to a specific paragraph (s) or policy sub-number (s)? Please select one option.

None of the above

3. Do you consider the Draft Local Plan is: Please select one option in each row.

	Yes	No
Legally Compliant		
Sound		X
Compliant with the Duty to Co-operate		

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

The local infrastructure is not suitable for the amount of development planned.
The local schools are already at capacity.
The local doctors and dentists are already struggling to deal with the number of patients they have.
The road system is not fit for the amount of traffic currently using it never mind the increased traffic this development will engender. The canal crossings, the village centre and the Car and Lion lights already make car journeys unbelievably slow and increase then amount of air pollution.
The re can be no justification for using green belt land. With climate change and the latest research about our disappearing wildlife, this is short sighted and irresponsible.
The lack of the green belt would change the whole character of the area and villages would be merged and lose their individual character.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The extent of housing must be reduced.
Local infrastructure must be improved before any increase in housing.
Brownfield sites should be considered first.
Green belt land must be considered as off limits.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.
