Subject: Dear Warrington borough council,

Dear Warrington borough council,
I am [REDACTED] I live in a beautiful part of Lymm. I would like to give you the general opinion of the younger generation living in Lymm.
Firstly, my opinion is that you should not build on the green areas in Lymm. This is because, we would like Lymm to stay as it is. Namely, fresh air, fresh green fields and a friendly community .
Also, Lymm can't handle more people. This is because 1. There isn't enough roads to support the traffic the houses will bring 2. There aren't enough spaces in the schools since there are only four primary schools (Statham, Cherry tree, Oughtrington, Ravenbank) and one high school (Lymm high school) and even if you built another school (which would cost quite a lot) it probably wouldn't support all the new children. 3. As well as this if you do decide to build houses on the green areas in Lymm then the rest of the kids in Lymm will have to spend the next ten or so years growing up in a building site. 4. Also there is one thing which I don't get, how come you are taking away farms which provide food just so you can add more people. That would mean less food, more people.
5. When you build on this green area it cannot be reversed back to green land and in the future when we need more Greenland we can't just knock down the houses and make it green again. So if you build houses on the green belt then it will stay there permanently.
I do hope you consider all of this and don't build on the green areas in Lymm because it is an awesome place.
