| Subject: Disgraceful -utterly disgraceful - way to conduct a 'supposed' consultation (on preferred development plan) |
|--|
| |
| rate payer and resident |
| your proposed new 'main road to Warrington' (from the garden city new build south eastern suburb |
| incidently, built upon one of the few remaining bits of green belt left in south Warrington |

I have only become aware in the last few days about the Warrington proposals for a new garden city / south EAST

Grappenhall

and ESPECIALLY the proposals for a new 'main road through Grappenhall and Thelwall and Latchford using the high level railway bridge over the ship canal near Latchford locks

which I absolutely oppose for so many many reasons not least

20th century solutions are offered to 21st century problems - the easy option taken -the low hanging fruit cropped

the true hopelesness and lack of imagination within the plans proposed, must be truly embarrassing to those involved

I notice the consultation is due to close to the public by September 12th 2017

with many people away either completely unaware of what is being proposed - or still away on holiday

and, there have been no consultation meetings specifically arranged for Grappenhall or Thelwall whatsoever

I,e areas perhaps greatly affected by these plans ?????????????????????? outrageous !!!!

worse, the consultation documents are online and response by e forms

my mother in law for example is elderly does not have access to a computer but has strong feelings about what is proposed

as explained in local notices pinned up around the neighbourhood and, by word of mouth

how is she supposed to understand, let alone respond ????

How do we access the forms to fill in and hard copies that can be read in conjunction with filling them in ?

your approach is nothing short of <u>disgraceful</u> - and show total and utter disregard and disrespect to your own ratepayers in key areas of the town

how can we consult when you have made no attempt to make plans nor forma accessible to thousands of your very own

rate paying residents

I will be ringing your office tomorrow morning to have this out with you having already written to my constituancy MP

rest assured
