

[REDACTED]

---

I object to the Development Plan for the following reasons:-

It would be preferable to use Brown Field sites on the north side of Warrington rather than destroying green field sites in south Warrington.

The large number of new houses proposed for south Warrington would cause enormous traffic problems and would require major infrastructure investments which have not been properly considered.

The large number of houses proposed is motivated in part by the desire of the Council to achieve city status for Warrington. I object to the aim of achieving city status.
