

[REDACTED]

---

To whom it may concern,

[REDACTED] We chose the beautiful area of Grappenhall because of its semi-rural location. We thought it would be an excellent location to bring up a family; we love the outdoors, walking and cycling and we spend a huge amount of it in the local area with access right on our doorstep. [REDACTED] would love to stay in this area but concerned we may have to leave due to the potential plans of this town.

The proposed plans to change Warrington into a city will not only mean that our house could be demolished but the additional housing and traffic through this beautiful part of Cheshire would be destroyed. The additional traffic will not only cause pollution levels to rise but the removal of green space will completely change the local environment and appeal of this area.

[REDACTED] Trans Pennine Trail, which according to the plans will become a major road. [REDACTED] the Trans pennine trial and this path is in constant use by the local community and visitors to the area and will be a great loss to our lovely town.

Our family and our neighbours are devastated that the south of Warrington may no longer be the town that attracted us here [REDACTED] The plans that have been released to us are not clear on whether our houses are at risk, if there will be a major road built or not and the lack of communication concerns us greatly, [REDACTED] [REDACTED] and have never felt so disconnected from the future of our town as where we have now with these plans.

If you could send us anything to ease our concerns around our home, we would be much appreciated but please ensure this email is considered towards any future plans regarding the future of this beautiful village.

Regards

[REDACTED]
