Submitted values are:

## Your information

### Your name

Louis Whitfield

### Address

[REDACTED]

### Email address

[REDACTED]

## Modification response

### Which main modification or consultation are you responding on?

Six56

### Is the main modification legally compliant?

No

### Why do you consider it is not compliant (max 2000 words)

Destruction of greenbelt area which is not wanted by the local community, farming and greenspace is needed more than ever with cost of living crisis and climate change.

Greenbelt should do be removed so easily as Warrington council have done in the past. if there isn't a point at which it is stopped 100 years from now future generations won't have much countryside to appreciate.

As a person who is not very allitire I find it hard to get my point across on paper, but so determined to do so with destruction of local nature, for gastly warehouses, which will produce nothing but more traffic, more pollution, less wildlife and less farming for the local area, only profits for big multinationals companies.

There must be a point as to which this madness is stopped... for the sake of future generations, if we let this continue on huge greenspace such as this, there will be no end in site to the destruction

### Is the main modification sound?

No

### Why do you consider it is not sound (max 2000 words)

Destruction of greenbelt area which is not wanted by the local community, farming and greenspace is needed more than ever with cost of living crisis and climate change.

Greenbelt should do be removed so easily as Warrington council have done in the past. if there isn't a point at which it is stopped 100 years from now future generations won't have much countryside to appreciate.

As a person who is not very allitire I find it hard to get my point across on paper, but so determined to do so with destruction of local nature, for gastly warehouses, which will produce nothing but more traffic, more pollution, less wildlife and less farming for the local area, only profits for big multinationals companies.

There must be a point as to which this madness is stopped... for the sake of future generations, if we let this continue on huge greenspace such as this, there will be no end in site to the destruction

## Detailed response and document upload

### Detailed response to main modification (A maximum of 5000 words, which equates to roughly 10 sides of A4 paper)

Destruction of greenbelt area which is not wanted by the local community, farming and greenspace is needed more than ever with cost of living crisis and climate change.

Greenbelt should do be removed so easily as Warrington council have done in the past. if there isn't a point at which it is stopped 100 years from now future generations won't have much countryside to appreciate.

As a person who is not very allitire I find it hard to get my point across on paper, but so determined to do so with destruction of local nature, for gastly warehouses, which will produce nothing but more traffic, more pollution, less wildlife and less farming for the local area, only profits for big multinationals companies.

There must be a point as to which this madness is stopped... for the sake of future generations, if we let this continue on huge greenspace such as this, there will be no end in site to the destruction
