

The Borough of Warrington Establishment of Toucan Crossing

Statement of Reasons

Funding has been secured via a local development Section 106 agreement for the provision of a toucan crossings on Witherwin Avenue East of Astor Drive.

The proposed facility is to address severance of pedestrian and cyclist routes between the residential areas to the north and the school and play area to the south.

The crossings will promote walking and cycling to school and leisure potentially reducing the demand for parking outside the school, deliver health benefits and reduce environmental impact.

In view of the above it is therefore proposed to introduce a **Toucan crossing** facility on Witherwin Avenue.

SCHEDULE

Witherwin Avenue	Located approximately 210 metres south east of its junction with Astor Drive.
